AQUAFISH

Increasing acceptance and public awareness of the consumption of sustainable seafood

AQUAFISH0.0

16 avril 2026

Objectives

Seafood product valorization (how?)

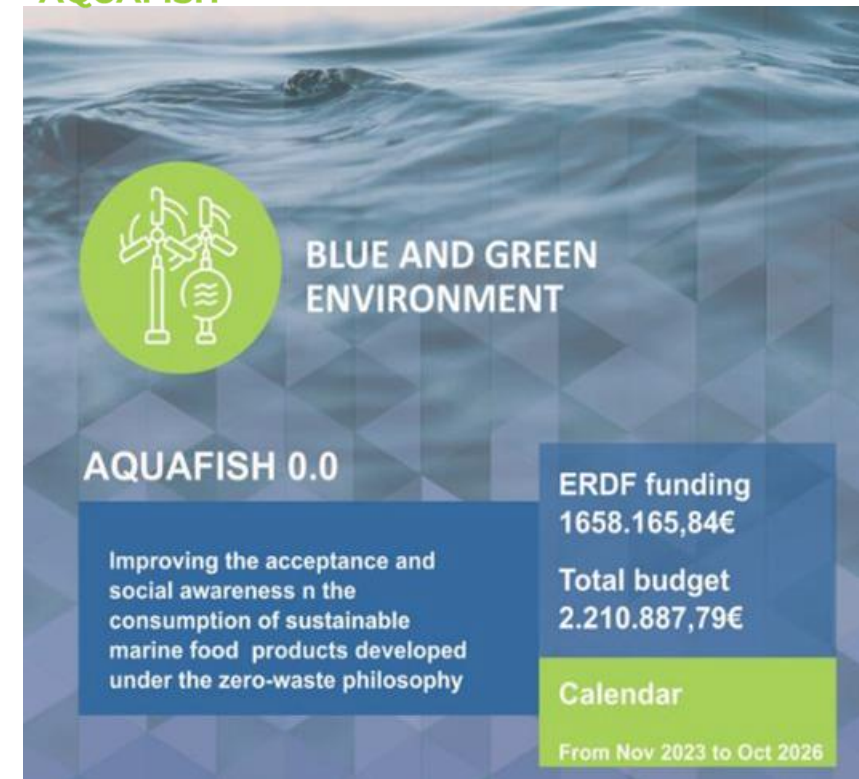

- Promoting sustainable production and consumption of new seafood products.
- Using a circular economy approach, making use of by-products and by-catches from aquaculture and fishing industries.
- Raising awareness among consumers and producers about the need for policies that reduce food waste (the “zero waste” approach).

AQUAFISH

BLUE AND GREEN ENVIRONMENT

AQUAFISH 0.0

Improving the acceptance and social awareness in the consumption of sustainable marine food products developed under the zero-waste philosophy

ERDF funding
1658.165,84€

Total budget
2.210.887,79€

Calendar
From Nov 2023 to Oct 2026

Project challenges

R&D: Develop new food products using by-products and by-catches. Pilot actions to support **sustainable aquaculture** and low trophic level species.

Raise public awareness about the circular economy, both for responsible consumption and reducing waste.

Support better policies and regulations to help develop and introduce these new products.

the European Union

Partnership

PARTNERS:

Associated:

Ongoing activities: Aquaculture cultivation techniques

Pilot actions (IMTA cultivation and low trophic species)

Paracentrotus lividus and Ulva sp.

Holothuria foskopii and Haliotis tuberculata

H.arginensis and Ulva sp.

Ongoing activities: Innovative products

Ongoing activities: next generation engagement

Gastronomic recipe challenges

Educational activities

Virtual reality cooking video game

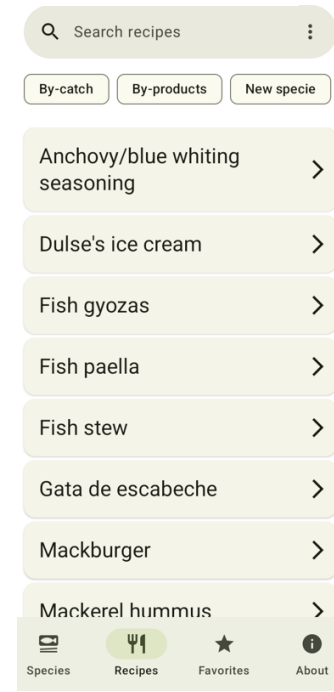

Ongoing activities: Social acceptance

Presence in gastronomic fairs

SeaCHEF mobile app
